Luminary candles are the perfect way to add a special touch for parties, weddings, and neighborhood events. A luminary is simple and easy to make. Just follow these instructions.

- Step 1: Take a bag from the package and open it out making sure all extra folds and wrinkles are flattened and straight.

- Step 2: Fold the top of the bag starting at the corner of the bag and fold down 1-2" from top. Gently fold around the rest of the bag, straightening out the wrinkles at the top after your finished folding. This adds strength to the top of the bag.

- Step3: Pour (1) cup of sand into the folded bag. Be sure to use at least 1 pound of sand per bag as this will ensure the bag won't be blown away in a gust of wind or by a passing car.

- Step 4: Light tea light candle and place into the bag securing it in the sand. Enjoy the beautiful effect the luminary will have at your party or special event!
